2. After 5 p.m. on 10 March, two Po-2s made local training flights at the field. On 16, 17, 18, and 20 March, 5 to 10-minute flights were observed. An estimated 100 men wearing black-bordered blue epaulets were seen in the airport building. Only little activities were observed at the Luftkriegsschule. During the second half of March, activities at the drivers' school were normal. Trucks were seen proceeding to the Luftkriegsschule.

Comment. The report indicates that there was no change in the occupation of Dresden-Klotzsche airfield. A motor vehicle distribution point with an attached drivers' school and an air force unit are believed to be stationed there. The flights observed at the field were probably routine training flights.
